

# HOW TO WIRE A TIMER TO THE CONTROLLER

A LICENSED ELECTRICIAN IS REQUIRED TO INSTALL THIS PRODUCT.

Note 1: Neutral / white wire should be capped if timer is not required.

Note 2: If one timer is used to control more than 1 heater, jump all L Dim in wires with the timer output line (Red Wire).

## ELECTRIC SHOCK HAZARD!

- Serious injury or death may occur. Disconnect from electrical supply before installing or servicing this heater. Read and follow installation clearance requirements outlined in this manual. The Appliance **MUST** be connected to a properly grounded electrical source.
